

**AMENDMENTS TO THE SPECIFICATION**

*Please replace paragraph [0041] on page 7 with the following amended paragraph.*

**[0041]** CPU 20 starts clocking when power supply to other blocks is turned off to calculate values of the MIB information to be transmitted to network 36. Interface unit 7 transmits, in response to a request for MIB information from network 36, the MIB information stored therein to network 36. The interface unit 7 and the image processing unit 6 are connected by a line 38 and a line 37.
